

# Robert Tarabay

Director

Robert's career spans 30 years in the bus and transport industry. Robert started his working career as a heavy vehicle mechanic, from there he has worked in various fleet maintenance and operational positions within the bus industry. Not one to rest on his achievements in the bus industry Robert then moved onto the building facilities and infrastructure industry. Working on preventative and reactive maintenance and also developing major infrastructure projects from concept right through to implementation. Before starting his own company Robert reached executive director level at the State Transit Authority and was directly involved at strategic levels in the transport sector and changed the face of bus services in the Northern region of Sydney, managing a \$100M a year business.
